THEMED EVENTS

Our Themed Events offer a full day package with an underlying theme to tie the whole day together. This works well for large teams that need to break down into smaller units, giving them the opportunity to utilise one or multiple activity venues.

Our Themed Events consist of 2-3 activity options depending on the size and requirements of your group. The events are structured to ensure maximum time on each activity and to ensure each team member enjoys the benefits of the day.

Your activities may utilise one of our sites for the day or may require moving venues in between activities, in which case minibus transport can be provided.
